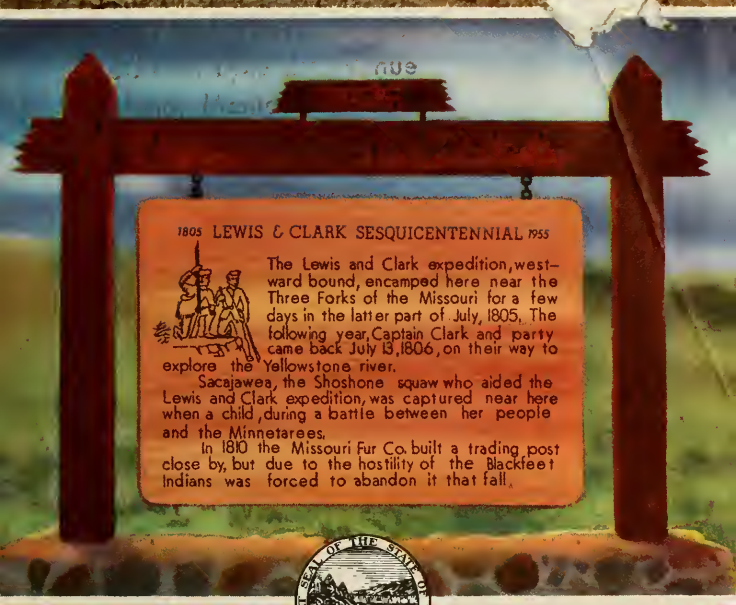
HIGHWAY MAP



1805 LEWIS & CLARK SESQUICENTENNIAL 1955
The Lewis and Clark expedition, westward bound, encamped here near the Three Forks of the Missouri for a few days in the latter part of July, 1805. The following year, Captain Clark and party came back July 13, 1806, on their way to explore the Yellowstone river.
Sacajawea, the Shoshone squaw who aided the Lewis and Clark expedition, was captured near here when a child, during a battle between her people and the Minnetarees.
In 1810 the Missouri Fur Co. built a trading post close by, but due to the hostility of the Blackfeet Indians was forced to abandon it that fall.

TRAFFIC REGULATIONS AND SAFETY RULES

1. Montana speed limits: reasonable and prudent to existing conditions in the day time, 55 miles per hour during the hours when lights are required, except where zoned and posted for lower speeds.
   No truck shall be operated at a speed greater than 45 miles per hour.
2. Vehicles entering main highways from side road or drive must come to complete stop before entering highway and yield right-of-way to vehicles traveling main highways.
3. Vehicles must drive to right of center line at all times except when passing another car. Never pass on hills or curves. Be sure you can see far enough ahead to make a safe passing before you try to do so.

4. Proper signal must be given when passing another vehicle, changing direction, stopping or slowing down on the highway. Blow horn to warn the car ahead you are going to pass—left turn, left hand and arm extended horizontally; Right turn, left hand and arm extended upward, Stop or Slow Down, left arm extended downward.
5. Observe and obey all warning signs, such as School Zone, Stop, Slow, Danger, Curve, etc. They are placed there at considerable expense for your protection.
6. Never drive at a speed greater than that at which you can stop in the clear road visible ahead. Slow down at night or when the road is wet or icy.
7. When approaching another car from either the front or rear, dim your lights. Don't be afraid to dim first (courtesy promotes safety).
8. Slow down when approaching any child, pedestrian bicycle, livestock, parked car, or other obstruction on the highway. Be prepared for the unexpected.
9. Don't stop or park on the main traveled portion of the highway, especially on hills or curves. Pull out on the shoulder. It's safer for you and other cars.
10. Report all accidents resulting in death, personal injury or property damage of an apparent extent of $25.00 or more to the Highway Patrol.
11. Be careful. An alert, careful driver is the best insurance against all accidents.
12. **PREVENT FOREST FIRES—USE YOUR ASH TRAY.**

MONTANA ROADS OPEN FOR WINTER TRAVEL

Modern maintenance equipment enables Montana to keep all primary roads (shown in red) open during winter months except for very short periods during or immediately after a severe storm. Inquiries should be made regarding local conditions during storms. Chains and a shovel are recommended.

All main highway passes are kept open during the winter. Passes that are closed to wheel traffic for several months are

Red Lodge-Cooke City highway to Yellowstone Park on U. S. 12
From 12 miles south of Red Lodge over Beartooth plateau
Skalkaho pass on Montana 38 between Anaconda and Hamilton.
Gibbons pass on Montana 43 from 2 miles north of Wisdom to U. S. 93
Logan pass in Glacier National park Closed from approximately Oct 15 to June 1
Yellowstone National park roads subject to closure after Oct 15 except for Gardiner—Cooke City via Mammoth which remains open year round

As part of Montana's winter maintenance program, hills and curves are sanded. Reduced speeds are recommended for winter highway travel.

Montana's snow removal program is one of the finest

GLACIER NATIONAL PARK

A million acres of scenic grandeur—that's Glacier National Park in northwestern Montana. In this most rugged section of the American Rockies are more than sixty glaciers—great never-melting snowfields—and two hundred sparkling lakes. Forests of fragrant evergreens, colorful fields of mountain wildflowers, wildlife of many varieties, miles of good fishing streams—all are part of this superb mountain park.

Going-to-the-Sun Highway, a spectacular fifty-mile drive, runs east and west through the center of the park, crossing the Continental Divide at Logan Pass. Lofty peaks, sheer cliffs, crystal waterfalls, dense forests, distant glaciers, meadows of brilliant blossoms, shimmering lakes, inquisitive bears and proud mountain goats high on rocky ledges make up the changing panorama along Going-to-the-Sun.

More than a thousand miles of horseback and foot trails lead deep into untouched wilderness. Trail trips, long or short, provide the best means of seeing and enjoying the remote beauties of the park. Many of the glaciers can be visited readily by trail, and the park's best fishing is often found in the back country. (No fishing license is required.) Saddle horses are available for delightful trail trips, and riding experience is unnecessary.

Warm, sunny days and cool, starry nights are the rule throughout the summer in Glacier National Park. Early season visitors find waterfalls at their most glorious, and mountain peaks still covered with winter snows. In the fall, deciduous trees display brilliant colors, highest peaks glisten with their first white dusting and skies deepen to a startling blue.

Going-to-the-Sun Highway, open about June 15, remains open well into October. Accommodations in the park are available from June 15 to September 10; all-year-round accommodations are conveniently located on the park's fringes.

The park, established by Congress in 1910, is the U.S. section of Waterton-Glacier International Peace Park.

NATIONAL FORESTS

Beaverhead National Forest 2,131,478 acres	Gallatin National Forest 1,689,320 acres

MONTANA WELCOMES YOU . . .

In the Land of Shining Mountains you will find great scenic splendor and the warm, friendly spirit of the West.

We invite you to share our wealth of recreation opportunities and the natural magnificence of our mountains, forests, badlands, lakes and streams.

From our fine highways, you can enjoy many of the same wonderful sights that Lewis and Clark saw, 150 years ago.

Take time to enjoy the variety of Montana—drive carefully—and come often.

Sincerely yours,

J. Hugo Aronson

J. Hugo Aronson
